

EQUUS SOPREMA FLAGON TPO ROOFING

Single layer waterproofing membrane

EQUUS SOPREMA FLAGON TPO membrane is a synthetic waterproofing membrane with TPO modified polyolefin, glass fibre reinforcement and a non woven felt fleeced back, manufactured by a worldwide leader of waterproofing products, SOPREMA. The upper layer features a high resistance to weather and UV rays, and the under layer provides high puncture resistance. The TPO membrane doesn't require an open flame during application as the membrane is installed by an adhesive or by mechanical fastening, and the laps are welded using hot-air welding technology. EQUUS SOPREMA FLAGON TPO is used for waterproofing on cold roofs, warm roofs, ballast & roof garden designs, and balconies.

Complete system accessories include:

- FLAGON EP Non-reinforced 1.5mm TPO detailing membrane
- FLAGON TPO 90° external and internal corner
- Flagon vents and pipe collars
- Adhesives
- TPO cleaner
- TPO solvent
- FLAGON pre-coated TPO metal flashing

Key Benefits:

- Cost effective across all markets
- Aesthetically smooth looking finish
- Flameless hot-air welding technology
- High puncture resistance
- Proven UV resistance
- Non-toxic for potable water collection
- Excellent flexibility and weldability
- Thermal insulation systems available
- Green roof systems available

Available Colours:

Basalt Grey

Sand Grey

Technical Support:

- Project Specific specification and details
- Condensation risk analysis for warm roof concepts
- Wind uplift study for warm roof concepts
- On-site quality assurance
- Approved/licensed application nationwide
- Extended Warranties available

BRANZ Appraised:

- BRANZ Appraisal No. 1157
- BRANZ Appraisal No. 1169
