

CHEVALINE DEXX WET AREA SYSTEM

Waterproofing membrane for internal wet areas

August 2023

PURPOSE AND AREAS OF USE:

The Chevaline DEXX Membrane is a flexible, liquid-applied waterproof membrane reinforced with a glass-fibre mat to provide a durable waterproofing solution for a range of situations. The system is designed for sealing interior wet areas such as residential bathrooms, and commercial shower and changing rooms.

Chevaline DEXX Membrane is an easy to apply and maintain, economical waterproofing system with proven durability and UV resistance. The material is a heavy-bodied waterborne acrylic paste ready to use from the container. It is formulated for high adhesion and water resistance, with toughness combined with flexibility in the cured film.

PRODUCT:

The system encompasses the products below. Refer to standard specifications P3014, and P3015 for full specification details.

Chevaline Epistixx
Chevaline DEXX Primer
Fibreglass Mat
Chevaline DEXX
Chevaline DEXX Wearcoat
Chevaline DEXX Topcoat
Traxx 2000

COLOUR:

Chevaline DEXX is supplied as Standard Grey (00-A-05) and White. Custom colours are available to match any colour chart.

SCOPE OF USE:

Chevaline DEXX Membrane can be used on new and existing concrete as a waterproofing membrane in interior wet areas, and with the inclusion of aggregate in the body coat to form Chevaline DEXX Wearcoat, the membrane is also applicable where non-slip finishes are required. The Traxx range of topcoats also allow the membrane to be used in areas where a heavier duty or chemical resistant finish is required.

Chevaline DEXX Membrane can be applied in a vast range of waterproofing applications where approved by Equus Industries Ltd. Including roof and deck waterproofing (See **Chevaline DEXX Roof & Deck Membrane**) and light vehicular traffic (See **Chevaline DEXX Carpark Membrane**).

CONDITIONS OF USE:

Chevaline DEXX can be used with substrates meeting the requirements laid out in the TDSs at www.equus.nz. The installation must be done by a Certified Equus Applicator. Verification of their status can be confirmed by a current applicator certificate or by contacting Equus Industries Ltd. Any installation must be done in accordance with the latest specifications and technical documentation, or with written approval by Equus Industries Ltd.

BUILDING CODE COMPLIANCE:

B2 Durability - B2.3.1 (a), B2.3.2 (a,b) Chevaline DEXX has a durability of at least 15 years when installed with the correct specification, installation and maintenance. Re-coating specifications are available to extend the life of the membrane.

C3 Fire affecting areas beyond the fire source - C3.4 (b) Chevaline DEXX test data together with in-service history of the correctly installed system show that the product limits the probability of fire spreading throughout the building. See AWTA Test Report 18-005761.

D1 Access routes - D1.3.3(d) Chevaline DEXX complies with D1/AS1 on level surfaces, and on level surfaces, and on sloping surfaces and stairs with the addition of aggregate to create Chevaline DEXX Wearcoat. See Opus Slip Resistance Report.

E2 External moisture - E2.3.1, E2.3.2, E2.3.7 Chevaline DEXX test data together with in-service history of the correctly installed Chevaline DEXX System over correctly designed and constructed substrates, show that the membrane resists the ingress of moisture.

F2 Hazardous building materials - F2.3.1 Well known experience with the type of materials used together with in-service history, show that Chevaline DEXX complies with this performance requirement. Refer to SDS at www.equus.nz

Refer to Beal PTS and Joyce Group Verification Report at www.equus.nz for further information on building code compliance.
