

# TROWELTEXX 2000 REMEDIAL SYSTEM

Trowel applied synthetic textured wall finish

December 2023

## PURPOSE AND AREAS OF USE:

The Chevaline Troweltextx 2000 remedial system is a waterproof plaster system designed as a full crack repair and remedial system for building refurbishments in the residential or commercial industry.

The system offers an acrylic plaster and mesh combination that encapsulates the building with a waterproof and flexible layer and a textured finishing plaster. To achieve a long-life, low-maintenance, weatherproof finish the texture system is coated with Equus high build Chevaline coatings.

Chevaline Troweltextx 2000 is a highly filled, heavy body waterborne acrylic coating available in a series of aggregate grades.

- Troweltextx Standard (1mm aggregate)
- Troweltextx Medium (2mm aggregate)
- Troweltextx Coarse (3mm aggregate)

## PRODUCT:

The system encompasses the products below. Specifications are engineered specifically to clients' requirements.

Suitable primer for substrate  
Thermexx Detail Plaster  
Thermexx Mesh  
Chevaline Troweltextx 2000  
Chevaline Coverall  
Chevaline Stonewash  
Chevaline Colourglaze

## COLOUR:

Custom colours are available to match any colour chart.

## SCOPE OF USE:

The Troweltextx 2000 system can be used over tilt slab concrete, concrete block, plastered systems and other approved substrates including monolithic cladding systems. As a remedial system it can be applied over a number of existing finishes and plaster. Suitable primer and number of coats are dependant on the substrate and the end use of the building, this can be confirmed with a specific specification provided by Equus industries Ltd.

The Troweltextx 2000 system is suitable as an exterior coating for new builds or refurbishments in the residential or commercial sector. Troweltextx 2000 can be used in all areas across the country including coastal areas.

The system can be applied in a wide range of applications where approved by Equus Industries Ltd.

## CONDITIONS OF USE:

Chevaline Troweltextx 2000 remedial system can be used with substrates meeting the requirements laid out in the TDSs at [www.equus.nz](http://www.equus.nz). The installation must be done by a Certified Equus Applicator. Verification of their status can be confirmed by a current applicator certificate or by contacting Equus Industries Ltd. Any installation must be done in accordance with the latest specifications and technical documentation, or with written approval by Equus Industries Ltd.

## WARRANTY:

Chevaline Troweltextx 2000 may be warranted for a period of up to 15 years depending of specification, substrate and end use requirement.
